

JAMIE SMITH BRINGS A YOUTHFUL WEB PERSPECTIVE TO CHAMBER BREAKFAST !

The Bellingin Chamber of Commerce 'Summer' Breakfast will present two local speakers with expertise and vision to share that will help streamline your business and expand your perspective on sustainability.

One of those speakers is local IT expert, young Jamie Smith of 1st Place Design who will bring you up to the minute on search engine optimization and website functionality for your business.

Jamie's precocious interest in computers began with computer games at age five. By 13 he was competing with friends to have the best and fastest computer which led to building computers for friends and family to save them money. By 16 Jamie had his own business, Smith's Computers – Chips & Bits, supplying hardware and support services and within a year had moved online with web hosting.

Jamie is a local boy and was educated at Bellingin High. While running his new business, and with the full support of his parents, he also began work with 1st Place Design, building links for company web sites and providing client support.

In 2009, aged 21, Jamie's meteoric rise took him to Manager and major shareholder of 1st Place Design. An impressive achievement that shows no sign of slowing. Smith's Computers has now become Online Business Solutions direct to customers while 1st Place Design operates as a wholesaler, supplying a broad range of web and phone services from web design to tech support. Two more businesses are in the pipeline.

Outside of work Jamie enjoys playing squash and tennis most days and would like to be involved in demonstrating to young people the positive aspects of computing in this fast, high tech world.

Come and hear our great speakers at the Bellingin Chamber of Commerce 'Summer' Breakfast Friday 4th December at the Bellingin Golf Club – 7.15 registration for 7.30 am start. \$20 Chamber members, \$25 non members. Everyone welcome !
