

# YOUTH LEADING Australia!

## Invitation to Community Forum

1pm - 3pm Thursday November 25<sup>th</sup> 2010

Norm Jordan Pavilion, Coffs Harbour Showground

YOUTH LEADING Australia is a 3 day congress for youth to connect with others in their own region and beyond, develop plans to implement the transition to a vibrant, sustainable future and take empowered local action that will make a positive difference for the future of our planet.

**At the close of this congress we will hold a youth led Community Forum.**

Invited guests will include local indigenous elders, politicians, business representatives, teachers, family members and interested groups.

**You are cordially invited to attend this important event.**

There will be opportunity for guests to engage with the youth and their plans, offer support for strengthening what they intend to do, as well as opportunities for youth to engage in what other individuals and groups are already doing locally.

The youth congress participants will design and lead this Community Forum. They will present their experiences of YOUTH LEADING Australia, their concerns for what is happening locally and around the globe, their vision for how they want their communities to be and their plans for making that happen.

**A vibrant, inspiring and empowering experience for all!**

RSVP by November 16th to Susan, YLA Community Forum Coordinator
